EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael J. DeHaemer on January 13, 2005.

2. The application has been amended as follows:

- **Please cancel claims 1-9.**

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

Regarding ***claims 10 and 39***, the primary reason for allowance is that the prior art fails to teach or reasonably suggest an interpolating portion for executing interpolation of pixels constituting image data, wherein a first interpolation is carried out when displaying by the display unit and a second interpolation different from the first interpolation is carried out when recording to a memory card.

Art Unit: 2612

4. Regarding *claim 16*, the primary reason for indication of allowable subject matter is that the prior art does not teach nor reasonably suggest an imaging device that corrects for both a frequency characteristic and a gradation characteristic according to the image recording mode.

5. As for *claim 33 and 37*, the primary reason for indication of allowable subject matter is that the prior art fails to teach or reasonably suggest executing an interpolation process based on a selected compression rate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
